NEW application restrictions for golf courses:
 For newly constructed golf courses, one broadcast application is allowed. For all other applications to golf courses, only spot treatments (100 square feet maximum per spot) are allowed. A spot treatment must not exceed 25% of total golf course acreage per year.

NEW application restrictions for sod farms:
 Only 2 broadcast applications are allowed per season. Do not apply within 25 feet of permanent water bodies or aquatic habitat, including, but not limited to, lakes, reservoirs, rivers, streams, marshes, ponds, and estuaries.

FLORIDA: Effective 1/1/2010, Trimec Plus (orange label) cannot be shipped in to or used in the state of Florida.
