Turf nutrient supplement for the maintenance of established turfgrass.

Guaranteed Analysis:

Soluble Potash (K ₂ O)	6.0%
Iron (Fe)	1.4%
1.4% Chelated Iron (Fe)	
Derived from: Potassium Hydroxide, Ferrous Sulfate, EDTA (ethylene diamine tetraacetic acid)	

Also contains Non-plant food Ingredients:

Humic acid derived from leonardite	35.4%
Ascophylum Nodosum (Sea Plant Extract)	4.8%
Trimethyl Silane Surfactant	1.4%
	F987

Formulation:

FOCUS CF is a turf nutrient supplement that includes non-plant food ingredients cold water sea plant extract, and humic acids. These ingredients are combined with chelated iron and a surfactant to help in soil penetration. FOCUS CF provides maximum benefit to established turf by reducing stresses such as intensive mowing, heat, wear and drought.

FOCUS CF is intended to supplement a complete fertilizer program based on soil test recommendations.

SHAKE WELL BEFORE USING

Where To Use:

FOCUS CF is intended for use on ornamental lawns and turf established for institutional, ornamental, and residential sites such as: hospitals, nursing homes, schools, museums, libraries, sport facilities, golf courses, and office buildings, residences, parks, retail outlets, cemeteries, industrial and institutional buildings, apartment complexes, condominiums.

Application Rates:

Apply FOCUS CF at 7 to 8 fluid ounces of product per 1,000 square feet (2.4-2.7 gallons per acre). Use at least one gallon of water per 1,000 square feet (40 gallons of water per acre) when applying this product. Irrigate with a minimum of 0.25 to 0.5 inches of water within 24 hours.

Highly Maintained Turf:

Apply 8 fluid ounces of FOCUS CF per 1,000 square feet at green up. Reapply 7 to 8 fluid ounces of FOCUS CF per 1,000 square feet at 30 day intervals throughout the growing season.

Stress Recovery:

If turf is showing signs of damage due to environmental or physical stress, apply 8 fluid ounces of FOCUS CF per 1,000 square feet and reapply 7 to 8 fluid ounces of FOCUS CF per 1,000 square feet in 14 days. Repeat application every 30 days until turf returns to normal appearance.

General Turf Maintenance:

Apply FOCUS CF at 7 to 8 fluid ounces per 1,000 square feet (2.4-2.7 gallons of product per acre) early spring, early summer and mid-fall.

ORNAMENTALS:

Transplants:

Mix FOCUS CF at the rate of 2 fluid ounces per gallon of water. Drench the root zone at planting. A second application can be applied after 14 days. Apply on a monthly basis if transplants are showing stress.

Established Trees and Shrubs:

For established ornamentals, mix FOCUS CF at the rate of 2 fluid ounces per gallon of water and use as a drench over the root zone of the plant. Applications can be made on 14-30 day intervals. FOCUS CF can be mixed with fertilizers. Add soluble fertilizers to the FOCUS CF water mixture and drench the root zone of the ornamental. For soil injections, use at the rate of 1 gallon of FOCUS CF per 100 gallon of water. Soil injections should be made at the rate of 7 gallons of water per each 1000 ft² of treated ground surface. FOCUS is compatible with fertilizer and will enhance the uptake of the nutrients. Spring and fall applications are recommended.

Annuals and Perennials:

Applications of FOCUS CF will enhance both the establishment and blooming of both annual and perennial flowering bedding plants. At planting, mix FOCUS CF at the rate of 2 ounces per gallon of water. Transplant root balls can be either soaked in the FOCUS CF water mixture and planted or drenched once planted. FOCUS CF can be mixed with soluble fertilizer and either foliar applied or drenched in the soil. Mix FOCUS at rate of 2 ounces to each gallon of fertilizer solution. Follow the directions of the fertilizer for application timing.

Tank Mix Compatibility:

FOCUS CF can be tank mixed with most pesticides and fertilizers and surfactants. **Avoid mixing FOCUS CF with strong acidic or alkaline materials. Always check all materials for compatibility before use.**

LIMITED WARRANTY AND DISCLAIMER

The manufacturer warrants only that the composition of this product conforms to the guaranteed analysis given on the label, and that the product is reasonably suited for the labeled use when applied according to the directions on the label.

THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE EXPRESSLY DISCLAIMED. This limited warranty does not extend to the use of the product inconsistent with label instructions, warnings or cautions, or to use of the product under abnormal conditions such as drought, excessive rainfall, tornadoes, hurricanes, etc. These factors are beyond the control of the manufacturer or the seller. Any damages arising from a breach of the manufacturer's warranty shall be limited to direct damages, and shall not include indirect or consequential damages such as loss of profits or values, except as otherwise provided by law.

The terms of this Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements. No employee or agent of the seller is authorized to vary or exceed the terms of this Limited Warranty and Disclaimer in any manner.
