## DIRECTIONS FOR USE

This product aids in the early root development and the promotion of a more vigorous plant. The nitrogen (N) is for the promotion of rich green growth of the plant. The phosphorus (P<sub>2</sub>O<sub>5</sub>) is for stimulation of early root formation. The potassium (K<sub>2</sub>O) is for maintenance of overall plant vigor.

This fertilizer is intended to be applied at transplanting for trees, shrubs, hedges, groundcovers, container-grown ornamentals, flowers, and vegetables. Sites include nurseries, greenhouses, and indoor/outdoor residential areas.

Suggested rates of applications are presented in Table 1. Subsequent or maintenance applications are advised. Contact your local horticultural extension service or university specialists for additional recommendations.

## USE PRECAUTIONS

This product is not for human consumption. May be harmful if swallowed. Avoid contact with eyes, open cuts or sores. Keep out of reach of children. Wash hands after use. Store in a cool place.
