

PONDMASTER®

Aquatic Algaecide

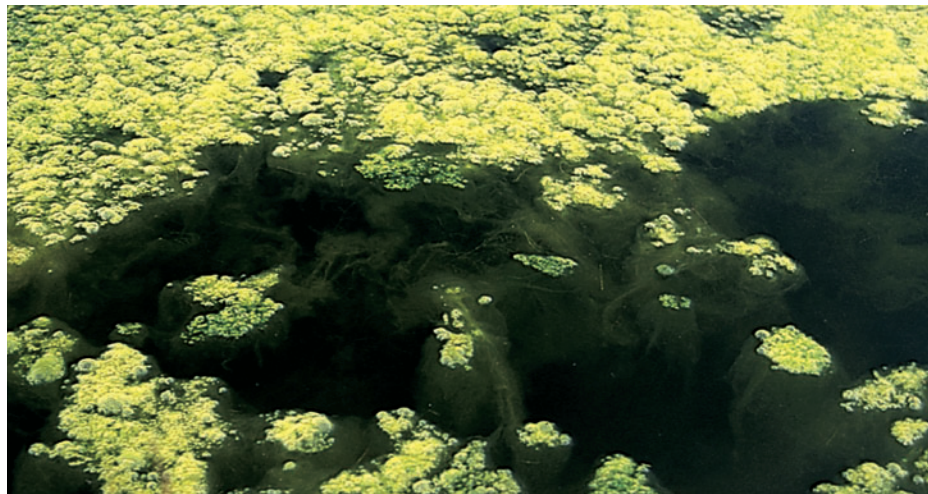

Effective control of planktonic and filamentous algae without interrupting use of water for irrigation or recreation.

Pondmaster® Aquatic Algaecide is a stable, non-corrosive formulation of a copper-triethanolamine complex specifically blended for use as an aquatic algaecide. Pondmaster Aquatic Algaecide can be used for algae control in ponds and lakes, as well as potable water reservoirs, fresh water lakes and fish hatcheries.

Pondmaster Aquatic Algaecide provides very effective algae

control — even on difficult species like *Chara* and *Phormidium*. Pondmaster treated water can be used without interruption for fishing, swimming and watering wildlife. And Pondmaster treated lakes and ponds are also available immediately for irrigation of greens, fairways and other fine turf sites as well as ornamental plants.

Pondmaster is a registered trademark of PBI-GORDON CORPORATION.

- **Low fish toxicity**
- **Effective control of both planktonic and filamentous algae species**
- **Chemically stable during storage**

- **Keeps water available for irrigation and recreation uses**
- **Can be tank-mixed with aquatic herbicide products**
- **Liquid formulation for ease of application**

RECOMMENDATIONS

Recommended for aquatic algae control in slow moving or quiescent bodies of water including ponds and lakes; fresh water lakes, fish hatcheries and potable water reservoirs.

ACTIVE INGREDIENT:

*Copper as elemental 8%
Inert Ingredients 92%

*Derived from copper-triethanolamine complex and copper hydroxide.

EPA Reg. No. 67690-24-2217

PACKAGING:

4 X 1 gallon per case:
shipping weight. 40 lbs.
