INSTRUCTIONS

GORDON'S PRUNING SEALER is an all-weather tree paint and wound dressing used to seal cuts, wounds, and grafts of trees, shrubs, and ornamentals. This asphalt emulsion provides a protective layer over pruned, grafted, or damaged surfaces and may prevent desiccation.

TO OPERATE — Shake before using. Hold the can upright with the valve 8 to 12 inches from the surface to be treated. Press the valve to spray. Apply uniformly, allow to dry, and make two applications. Spray away from buildings, sidewalks, fences, and painted surfaces to avoid staining.

SHADE TREES, FRUIT TREES, BROADLEAF SHRUBS, NEEDED EVERGREENS

After pruning branches or trunks, apply GORDON'S PRUNING SEALER to the primary cuts or exposed wood and to the adjacent bark. Two applications are recommended.

GORDON'S PRUNING SEALER may be used at any time to seal wounds or to repair bark and limb damage. Trim as required and treat. Before banding and bracing split limbs, apply thoroughly.

ROSES, VINES, HERBACEOUS PLANTS, AND CONTAINER-GROWN ORNAMENTALS
