

# SPRAY COLORANT

**Highly visible blue spray pattern indicator non-staining to most decorative surfaces.**

Gordon's Professional Spray Colorant is designed for use in landscape settings, lawns, nurseries, cemeteries, golf courses, athletic fields and parks — anywhere the professional spray applicator requires a visual aid to assure even and accurate spray coverage.

Gordon's Professional Spray Colorant can be used with Embark® 2-S Plant Growth Regulator and other turf products to eliminate skips and overlaps. Mixed with pesticides or other liquid spray solutions, it imparts a highly visible blue color which dissipates quickly.

Gordon's Spray Colorant will not permanently stain sidewalks, headstones, painted surfaces and most other decorative inorganic surfaces.

Gordon's Professional Spray Colorant is packaged in one gallon containers for ease of mixing and handling. Concerns over staining hands and equipment are virtually eliminated.

Embark is a registered trademark of PBI/GORDON CORPORATION.

## RECOMMENDATIONS

Add to color spray solutions whenever even coverage is essential. Also, useful for checking spray patterns from nozzles and helpful in spray calibration. Colorant cannot affect particle drift or vapor drift.

## PACKAGING:

Plastic U.S. gallons: 4 X 1 per case:  
shipping weight: . . . . . 38 lbs.

- *Mixes easily in water.*
- *Highly visible blue color.*
- *Eliminates staining of hands and equipment associated with liquid dyes and colorants.*
- *Temporary colorant — photodecomposes and dissipates rapidly.*
