

# T-ZONE™

BROADLEAF HERBICIDE FOR TOUGH WEEDS

## Tough weeds controlled – FAST!

T-Zone™ Broadleaf Herbicide for Tough Weeds provides exceptional broadleaf weed control in cool-season turf-grasses. T-Zone contains four active ingredients including triclopyr (“T”), a proven ingredient for hard-to-control weeds.

Energized with sulfentrazone (“ZONE”), T-Zone is fast-acting with visible activity in hours. Weed death can occur within 7 to 14 days. Sulfentrazone, a protox inhibitor, works by preventing a key enzyme required for chlorophyll production

Tests have consistently shown control of tough weeds like wild violet, ground ivy, black medic, oxalis, clover, spurge, speedwell and lespedeza. The oil-based formula cuts through the cuticle of the toughest weeds.

Hard-working triclopyr, when combined with fast-acting sulfentrazone and precise ratios of 2,4-D and dicamba, provides premium weed control. T-Zone affects multiple sites within broadleaf weeds with symptoms including rapid leaf

and stem curl, twisting, yellowing and browning. As a bonus, the sulfentrazone provides suppression of young and actively growing yellow nutsedge.

T-Zone opens up more application opportunities than most herbicide products. Improved cool-weather performance allows applications earlier and later in the growing season. Rain-fast in as little as 3 hours, there is less concern about weather interference.

Add T-Zone to your tank and members or clients will see the fast results, reducing the number of complaints or call backs. T-Zone has a CAUTION signal word. A low-odor formulation, T-Zone can be applied without raising unnecessary concerns over pesticide applications.

### RECOMMENDATIONS

Post-emergent broadleaf weed control in home lawns, golf courses, parks, commercial property, schools, sod farms, roadsides and cemeteries, especially where rapid visual results are an advantage.

#### ACTIVE INGREDIENTS:

Triclopyr BEE, butoxyethyl ester	8.40%
Sulfentrazone	0.73%
2,4-D, 2-ethylhexyl ester	31.82%
Dicamba acid	2.43%
Inert Ingredients	56.62%

EPA Reg. No. 2217-920

#### PACKAGING:

Plastic U.S. gallons: 4 X 1 per case:	
shipping weight	36 lbs.
Plastic U.S. 2.5 gallons: 2 X 2.5 per case:	
shipping weight	46 lbs.
